

Rationale and Aims

A clear policy that is understood and accepted by all staff, parents and children providing a sound basis for ensuring that children with medical needs receive appropriate professional care and support in school, and that for such children attendance is as regular as possible.

The policy is to include:

- Procedures for managing prescription medicines which need to be taken in the school day.
- Procedures for managing prescription medicines on outings and trips.
- Roles and responsibilities of staff administering medicines.
- A clear statement of parental responsibilities in respect of medicines.
- Written permissions from parents for medicines.
- Circumstances in which children may take non-prescription medicines.
- Assisting children with long term medical needs.
- Staff training.
- Record keeping.
- Safe storage of medicines.
- The school's emergency procedures.
- Risk assessment and management procedures.

In all instances the school will do all it can to persuade the parent to come into school to administer medicines.

Prescribed Medicines.

We will not accept medicines that have been taken out of the container as originally dispensed nor make changes to dosages as prescribed.

Controlled drugs should never be administered unless cleared by the Head. Reference should be made to the DfES document Managing Medicines in Schools and Early Years Settings 2005.

Short Term Medical Needs

In order to reduce the time a child is away from school the school will administer medicines, for example the end of a course of antibiotics or apply a lotion, but only for a short course where the timescale has been agreed with the school and only when previous avoidance strategies have been examined.

Note the exceptional terms in the previous paragraph.

Long Term Medical Needs

The school will be fully informed of the child's needs before admittance.

It is essential to have sufficient information in order for the child's medical needs to be adequately supported. (Reference should be made to the 2005 DfES document in order to devise a care plan.)

Administering Medicines

No child under 16 should be given medicines without written parent consent. Form 1 must be completed by the parent giving permission for medicine to be administered by staff.

Members of staff giving medicines should check:

- The child's name
- Prescribed dose
- Expiry date
- Written instructions on the packaging

Members of staff giving medicines will not be teaching members of staff but support staff who are:

- Willing to perform such tasks
- Trained where necessary for the task

If in doubt then do not administer medicines without checking with the school office staff who will then contact parents or the medical practitioner.

A record must be kept in a written form each time medicines are given.

Self Management

Children who are able will be encouraged to manage their own medicines. This will generally apply to relief treatments for asthma. Other medicines should be kept in secure storage so access will only be through the school office.

Record Keeping

Parents should inform the school of the medicines their child needs. School will check that the medicine is in its original container and that the dispenser's instructions are clear. Form 1, below.

Educational Visits

All medicines required by children on such undertakings will be part of the overall risk assessment for the visit. Medicines not self managed by pupils will be in the safe care of a nominated member of the support staff. This colleague should be one who is willing to carry this responsibility. Complex medical needs for a specific pupil may necessitate a health plan for the visit. If any member of staff is concerned they should seek advice from the school office.

Sporting Activities

It is advisable to prepare a risk assessment of medical needs of individual children, including those who may suffer from an asthma attack. Asthma relievers not self managed should be taken to the field in a box or container and be supervised by a support member of staff.

The Governing Body

The governing body will be made aware of this policy and its role in being generally responsible for all school policies.

The Head Teacher

The Head Teacher will ensure that all staff receive appropriate support and training and aware of this policy. Likewise the Head Teacher will inform the parents of the policy and its implications for them.

In all complex cases the Head Teacher will liaise with the parents and where parent expectation is deemed unreasonable then the Head will seek the advice of the school nurse or some such medical advisor.

Teachers and Other Staff

All staff should be aware of the possible medical risks attached to certain pupils. They should be aware of possible emergency action and emergency contacts. **Teachers' conditions of employment do not include the giving or supervising of pupils taking medicines. Any support member of staff agreeing to administer prescribed medicines should be in receipt of appropriate training. The training shall be commensurate with the situation.**

Storing Medicines

Medicines should be stored away from children, be in their original containers and refrigerated where necessary. This will be the responsibility of the school office. Children should know where their medicines are kept and who is responsible. **This should be an exceptional duty and be only used when medical advice dictates that no other course of action is possible.**

Emergency medicines such as asthma inhalers and adrenaline pens should not be kept

locked away but always in the vicinity of the relevant pupils. Any problems or issues arising shall be initially referenced to **Managing Medicines in Schools and Early Years Settings 2005 DfES.**

KEY POINTS

- **THE SCHOOL WILL NOT NORMALLY AND REGULARLY ADMINISTER MEDICINES TO CHILDREN UNLESS THE ABOVE POLICY APPLIES**
- **NO TEACHING STAFF WILL ADMINISTER MEDICINES OR SUPERVISE CHILDREN SELF ADMINISTERING MEDICINES**
- **ANY STAFF MEMBER ADMINISTERING MEDICINES WILL DO SO WILLINGLY AND WITH APPROPRIATE TRAINING**
- **ANY AND ALL MEDICINES WILL BE NOTIFIED TO THE SCHOOL OFFICE/WELFARE AND KEPT UNDER ITS SUPERVISION. This includes asthma relievers and adrenaline pens. The Office will know where these medicines are in school and the asthma register shall be updated annually and as and when new children come to school.**

Dissemination of the policy

Each teacher has a copy of this policy and a copy can be found in the Headteacher's office.

The school prospectus contains a statement about medical care, and it is sent to all parents of children new to the school.

A copy of the policy is available to any current or prospective parent, on request to the Headteacher.

Monitoring and evaluation of the policy

The policy will be reviewed every three years
