

Song by KPJS child: <https://www.youtube.com/watch?v=vNDojMnICCY>

Be a Friend to everybody
Use polite words when treating others
Look out and tell an adult you trust
Learn to not bully others it will come back
Your private information should be kept to your self

Jason SCM

Internet Safety Day

SAFETY FIRST!
 Think Safe...
 Work Safe...
 Be Safe

Never tell your password to anybody except your parents. Don't give private information to strangers

Don't play games that are not your age. For example fortnite is 12+ and if you are under 12 then you are not allowed to play Fortnite.

18+

Rebecca SCM

SMART

Staying safe on the internet is important. Always keep personal information away from strangers and websites. Facebook is to contact OGD friends. Even if they are kind, trust no one. Tell an adult when something is wrong. You are wiser than this.

Don't chat with strangers

Don't meet with strangers

Don't give out personal information

Dear SCM

Internet safety

Safety tip: If you are contacted on a platform by someone who you are not familiar with block them or remove them as a friend or follower.

Never give any personal information about you or family members because you don't know what people could do with that information

Age Restriction

Gia

POSTER AND POEM by Preena

Internet safety
 Staying safe on the internet is important. Always keep personal information away from strangers and websites. Facebook is to contact OGD friends. Even if they are kind, trust no one. Tell an adult when something is wrong. You are wiser than this.

INTERNET SAFETY
 STAY SAFE!

Useful Websites

For the first website I got 90% and it was a little bit easy. I like the third website as it taught me a lot about email addresses and how to respond. The fourth website had a really funny animation that taught me about internet safety. The last website had a really funny video telling me about why to not spend so much time on screens. Eliza SAA

Hana SRT

BE A FRIEND!
USE KIND WORDS!
LOOK FOR AND REPORT BULLYING!
LEARN TO USE EMPATHY!
YOU CAN STOP BULLYING!

INTERNET SAFETY

Strangers can hack or steal your personal information. It's hard to tell if someone you don't know because they might be a stranger! who will steal your identity!

STAY SAFE!

Eliza SAA

Internet
 No talking to strangers.
 Take the good news when someone engages with your 11 grounds in games.
 Read news on games and also enjoy.
 No sharing personal info.
 Engaging is fun when you're not being your parents to someone else.

Kenmore Park Junior School
 Your story is the most powerful gift

February 2021

Internet Safety Day 21

Safe don't give any personal information keep it safe to yourself
Making with somebody a dangerous theme message with somebody they would be so mean to you in person
Changing could be the safe if you get an email from someone you don't know think then OGD?
Remember the internet is full of friendly people and amazing facts but not all of them are good
Tell someone if someone is being mean to you don't suffer in silence tell anyone you trust like your mum or dad or teacher they will be able to help

Stay safe online
 Talk to an adult if you see something suspicious
 Ask an adult about something you don't know
 The personal detail has a way safe

Stay safe and don't talk to strangers.
 Ask an adult for help.
 Forget scanning you might be scanned

This is my song about internet safety. Fatima SRT

Do not talk to anyone that you don't know
 Because they might ask for personal information
 Don't talk to people that you don't know
 Report all bullies and don't keep it to yourself
 Be kind and don't bully
 Because the internet is a lovely thing!

Internet Safety

Be careful on the internet
 Because you might get upset
 Don't be mean behind the screen

Don't share your private information
 Never talk with strangers
 don't have a conversation

Never meet up with a stranger
 You never know there might be danger
 Be careful who you talk to

Remember kids don't talk with strangers

Poem

Abdia 5CM
It's online safety day, Today!
So remember to be safe, Hey!
When you see a stranger's comment
Don't be innocent,

This day is about staying safe online
This is how we define
Online Safety day!
Now I'm writing an essay
Telling you it is Online Safety Day!

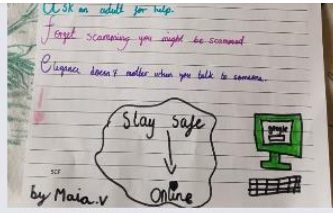

On the 9th of February
It is not ordinary
'Cause it is O online safety Day!
So remember remember
Stay safe online!

Jingle/Poem/Song or Rap

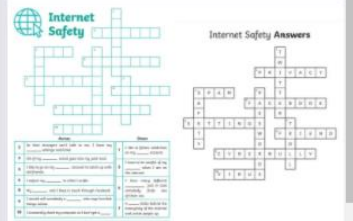

Don't talk to a stranger
Don't put yourself in danger
Don't talk to strangers online
Then the messages will decline
Don't meet strangers you don't know
Because you might feel like D'oh!

Chayen 5RT

Internet Safety Day poem All 5AA

Today we talk about
A place called the internet.
You might not know it,
So if you don't listen carefully,
There's a few rules you have to remember,
When you go on the one and only internet.
For example, never, ever share personal details,
With someone you don't know.
If you get a rude message,
Don't hesitate to tell a grown-up.
Only talk to people you know,
And use sensible websites only.
The internet, a place of wonder,
A brilliant place unlike no-other.
But it also has it's dark secrets,
Filled with bullies and lies.
So now you know some important rules,
You know how to use the internet.
So goodbye for now, have a good time.
Oh, and one more rule,
Remember, Stranger Danger!!

don't know

R The internet is full of things that are not real. Think about all the websites you visit.

T Tell an adult if you are unsure about something on the internet or if some threats are being made to you.

E-SAFETY POEM

E safety reminds us about being safe on the internet.

Say safe and never give out your personal information people or places you don't know

Always keep your privacy on the settings which are high as possible

Find something online you don't like, unsafe and worried leave the website, tell and adult immediately

Extra care should be taken to remember not everyone online say who they say they are

Think very carefully about what you say before putting anything online

You must respect others views, even if you don't agree with their views.

Alisha P

Internet Safety Acrostic Poem. Dalisha

Ignore the bullies
Never tell anyone your personal details.
Tell an adult.
Everytime someone bullies tell someone you trust.
R-Remember to be responsible when on the internet.
N-Never agree to meet up with an online stranger.
E-Even if you want to go meet up you can't because they might not be who you think they are.
T-Think before accepting anything because you might regret what you do.

Ensure you never meet with people you have met online.

Be thinking when using social or online profiles

Always use common sense on the internet and the things you do online.

Finding something online you don't like, unsafe and worried leave the website.

Even if you don't know them, don't respond or befriend them.

Tell an adult about issues online.

You should remember not everyone online says who they are.

Acrostic Poem: Natalia 6LP

Ignore stranger's message
Never trust someone you don't know
Tell a trustworthy adult
Even if you think you can manage by yourself
Rely only on people you know
Never send personal information to a stranger.
Every time you text something to someone about you they get more info to track you.
Try to avoid apps that can be dangerous or age restricted.

Internet Safety!

The internet is so dangerous, It's like a bully versus, A small child that doesn't know anything, From Texas all the way to Beijing, Kids are bullied everyday DING!!!

But you can prevent cyber bullying, Like not going on the internet at all And play on a swing, And you can also tell an adult you trust, And they can bust all those bullies you clust,

And now you're safe away from danger, And you can enjoy playing with your cat Ginger! David 5RT

Andrei Song

Please stay safe on the internet
 There are strangers who you don't know
 You might meet someone you never met
 They could be a massive danger to your family and you

You never know who you are chatting to.
 Only trust reliable people like your friends and families.
 Bad people may be trying to trick you.
 So you need to be safe on the internet

Staying Safe Online

1 Never tell your password and personal secrets to anyone you don't know.

2 Think before accepting anything because you might regret what you do.

3 Always use common sense on the internet and the things you do online.

4 Find something online you don't like, unsafe and worried leave the website.

5 Even if you don't know them, don't respond or befriend them.

6 Tell an adult about issues online.

7 You should remember not everyone online says who they are.

8 Be thinking when using social or online profiles.

9 Always use common sense on the internet and the things you do online.

10 Find something online you don't like, unsafe and worried leave the website.
